Your Greek Journey

Collect illustrated memories of learning milestones, from your first step to bigger moments along the way. Greek DNA adds a personal visual record of the Greek you have built.

THE GREEK YOU HAVE BUILT

A record that becomes your own.

Greek DNA grows from evidence in your learning activity. Its three colours represent different ways you have engaged with Greek.

The real Greek DNA design, shown as a visual excerpt without scores.

● Words

Unique words and phrases from lessons you have completed.

● Ear

Listening exercises and Greek Ear sequences you have practised.

● Voice

Speaking exercises and conversations you have completed.

Built from activity. Personal to you.

New evidence adds to your signature. Reviews becoming due do not make it shrink. Speaking remains optional, so Voice develops when you choose to practise it.

Greek DNA is a learning metaphor, not a fluency score or a measure of heritage. It makes your learning activity visible.
